CAREER OBJECTIVE

Computer Science & Engineering undergraduate with hands-on experience in Full Stack, Backend proficient in Java, Python, SQL, Node.js, Express.js, and MongoDB, seeking an entry-level Full Stack Development Engineer role.

EDUCATION

Pursuing Bachelor of Technology (B.Tech.) – Computer Science Engineering 2023 – 2027 | Jaipur, Rajasthan
Arya College of Engineering & IT, Kukas, Jaipur
Rajasthan Technical University (RTU) | Kota
CGPA: 8.57

Completed Senior Secondary from SBS Convent School 2021 – 2022 | Sikar, Rajasthan
Science (PCM)| **62.60%** | CBSE

Completed Secondary from D.A.V Centenary Public School 2019 – 2020 | Hanumangarh, Rajasthan
85.6% | CBSE

TECHNICAL SKILLS & CERTIFICATIONS

Languages
- Python (NumPy, Pandas)
- SQL
- Java
- HTML
- CSS

Tools
- VS Code
- Jupyter Notebook
- Requestly
- Unity
- GitHub

Core Skills
- Data Structures & Algorithms
- Database Management System

PROJECTS

Smart Inventory Management System
- **Technologies:** Node.js, Express.js, MongoDB, Mongoose, JWT, Redis
  Tools: VS Code, GitHub, Requestly
- Developed a backend system for managing products, users, authentication, and inventory operations.
- Implemented **JWT-based authentication** and role-based authorization with protected routes.
- Built RESTful APIs for product **CRUD operations**, pagination, filtering, and sorting.
- Integrated MongoDB for data management and explored Redis-based caching for improved application performance.

ShopWave – E-Commerce Platform
- **Technologies:** Python, Flask, SQLite, HTML, CSS, JavaScript
  Tools: VS Code, GitHub
- Developed a Python-based e-commerce platform for managing products, customers, and reviews.
- Implemented product management and database integration using **SQLite**.
- Created and managed a product dataset containing **250+ products and 1,500+ reviews** for testing and development.
- Focused on building a functional and user-friendly shopping experience with efficient backend data handling.

Smart Attendance Management System
- **Technologies:** Java, Database Management
  Tools: VS Code, GitHub
- Developed a smart attendance management application to simplify student attendance tracking.
- Implemented functionality for recording, managing, and retrieving attendance information.
- Designed the system with a focus on reducing manual work and improving attendance management efficiency.
- Applied Java programming and database concepts to develop the application.

INTERNSHIP

Full Stack Developer Intern — Padmas Technologies 05/2026 – 07/2026 | Remote

- **Duration:** 48 Days
- Worked on full-stack web application development using modern frontend and backend technologies.
- Developed and integrated REST APIs, authentication, database operations, and backend functionality.
- Worked with **Node.js, Express.js, MongoDB, JavaScript, JWT, and Git**.
- Performed API testing, debugging, optimization, and integration of application features.
- Collaborated with the development team and followed software development best practices.

Data Science & Machine Learning Trainee — GRRAS Solutions 05/2026 – 07/2026 | Jaipur

- **Duration:** 45 Days
- Completed intensive training in **Data Science and Machine Learning** using Python.
- Worked with data preprocessing, analysis, and fundamental machine learning concepts.
- Practiced Python-based data analysis and model implementation.
- Strengthened problem-solving, analytical thinking, and technical skills through hands-on learning.

Game Programming with Unity Intern — TechForce Academy Australia 06/2025 – 08/2025 | Remote

- **Duration:** 57 Days
- Completed an internship focused on **Game Programming with Unity**.
- Developed practical understanding of Unity game development and programming concepts.
- Worked on game development concepts and implemented features as part of a game project.
- Strengthened programming, debugging, problem-solving, and game development skills through hands-on practice.

AI Azure Intern — Edunet Foundation | Microsoft Initiative 06/2025 – 07/2025 | Remote

- **Duration:** 4 Weeks
- Successfully completed a 4-week internship focused on **AI Azure**.
- Gained exposure to Microsoft Azure and fundamental AI concepts.
- Worked on learning activities and practical tasks related to cloud-based AI technologies.
- Developed technical and problem-solving skills through hands-on learning.

CERTIFICATIONS

- Data Science & Machine Learning - GRRAS Solutions — 1st August 2026
- Full Stack Development – Padmas Technologies — 4th July 2026
- Microsoft AI Azure – Edunet Foundation — 15th July 2025
- Unity Game Development – Techforce — 13th August 2025

AWARDS

1st Position – Scintillation (Gamecon) 18th March 2024
